# Noah van Potten

## Full-Stack AI Engineer & Consultant

Amsterdam, NL · noah.v.potten@gmail.com · noahvp.dev · linkedin.com/in/noah-van-potten

> Full-stack AI engineer and consultant with a design background and deep technical knowledge. I build AI products end to end, from scoping with the client and designing the experience to engineering and deploying it. 9 AI projects delivered at AdamI across healthcare, education, logistics and e-commerce.

### EXPERIENCE

Mar 2025 – Present

**AdamI** · Full-Stack AI Engineer & Consultant

- Designed, built and deployed **9 AI projects** end to end, from agents and document extraction to complete web platforms, working directly with clients from the first meeting to production.
- Product owner and lead engineer of **Beluga**, AdamI's flagship AI chat platform, used by 4 companies and around 100 users: planned sprints, built new features and handled maintenance.
- **Managed other engineers** across projects, and ran client meetings, demos and handovers.

Aug 2024 – Mar 2025

**VU Amsterdam** · Teaching Assistant

- Guided first-year students in two programming courses (Python, Arduino).
- Explained programming concepts and best practices, helped students debug their projects and gave individual feedback on assignments.

### SELECTED PROJECTS

**AAYA Health Compass**
*Ran the clinic's entire tech, from design to launch:* a platform where clients see their health data as visual reports and doctors get AI-drafted texts.
Full-stack · Customer-facing web app

**LocalApps AI**
*Turned a minor project into a small business:* private, offline AI apps for lawyers, piloted with a real law firm.
Local LLMs · Complex high-performance RAG

**Order processing agent**
*Automated a logistics company's biggest bottleneck:* a high-volume order process too complex to hire for, so they can keep scaling.
OCR · Self-improving agent

**Incident report cartoons**
*Made safety lessons stick for a maritime company:* AI turns written incident reports into cartoon illustrations.
Generative AI · Compliance

### EDUCATION

2023 – Present — **BSc Creative Technology** · University of Twente / VU Amsterdam

2025 – 2026 — **Minor AI & Advanced Software Engineering** · ELTE Budapest

2017 – 2023 — **High school, Natuur & Techniek** · Metis Montessori Lyceum Amsterdam

2017 – 2023 — **Coderclass, advanced coding programme** · Extracurricular, alongside high school

### LANGUAGES

Dutch (native), English (fluent)
